a Nutreco company

Trouw Nutrition USA, LLC is an international leader providing the companion animal industry with technology-based ingredients originating through sound research and development. Our efforts lead to discovery and introduction of new, unique and improved pet food ingredients.

We are a global leader building upon our successes of more than seven decades providing innovative and safe nutrition solutions for the companion animal industry. At Trouw, we transform technology into products that improve the performance and well-being of companion animals. Our goal is to listen and learn in order to develop the premium programs and services that fulfill the needs of our customers. Our team at Trouw Nutrition concentrates on connecting the pet food industry with technology to help develop innovative solutions.

AT TROUW NUTRITION USA OUR COMPANION ANIMAL TEAM'S FORMULA FOR SUCCESS IS:

Trusted **Premium** Nutrients = Premium Foods.

Premium Foods = Premium Pets.

Premium Pets = Premium Pet Parents.

Premium Pet Parents = Premium Business **You** Can Trust.

TRUSTED WITH TRACEABILITY WHO'S PROTECTING THEIR NUTRITIONAL INTEGRITY?

Trouw Nutrition USA is committed to providing superior quality and safe solutions for your business. We pride ourselves on taking the necessary steps to confirm that ingredients and finished products comply with our customer's standards. Our **Nutrace®** program is our safeguard to protect our products and services. The Nutrace feed-to-food quality strategy is specified in five standards: Certified Quality, Ingredient Assessment and Management, Monitoring, Risk Management and Tracking & Tracing. This proactive program minimizes risk by using stringent ingredient assessments and management tools to add value to our customers and supply chain partners.

Trouw's manufacturing facilities actively participate in recognized food safety certifications and incorporate superior quality assurance programs to support our promise of excellence. Firm quality assurance principles have been put in place to keep our unique feed-to-food strategy. We accomplish this by maintaining certified quality standards, assuring high quality products and services. This gives our customers a totally transparent operation and their customer's confidence knowing they are working with a company that is looking out for their best interest. We minimize risk to assure customer satisfaction.

Our facilities have strict guidelines on products that enter and leave our facilities. No restricted-use proteins products are allowed in our facilities, which are certified by the Facility Certification Institute (FCI). Our superior quality is also backed up with drug-free facilities providing only the highest standards for your business. We have a company-wide commitment to support your brand integrity.

PREMIUM NUTRIENTS, PREMIUM SERVICE

From our nutrients to our customer service, Trouw Nutrition stands out amongst the competition. Our innovative nutrients and premium premixes help position our customer's products at a superior level while our customer service will provide unsurpassed professional support. We maintain a business specifically focused on pet food and remain devoted to manufacturing superior quality products for our customers. Trouw Nutrition has multiple plants specific to pet food manufacturing, this added benefit allows us to dedicate entire production areas to specific jobs and focus on your brand. We also achieve consistent particle size distribution in our premixes validated by mixer studies with low CV's (Coefficient of Variation). This is one of the many services our quality department offers because they are skilled and well trained. We deliver premium nutrients with premium service.

TROUW NUTRITION HAS POSITIONED ITSELF TO BE YOUR PARTNER FOR THE FUTURE....

Trouw Nutrition has been a leader in providing conventional nutritional solutions to our customer's business. We are world leaders in delivering innovative products that provide stability and efficiencies in a world of change.

FOCUSED ON PET FOOD

Trouw Nutrition's Companion Animal Team is dedicated and focused on providing premium nutrients and premixes to the companion animal industry. When companies partner with us, they know they have the most experienced and skilled pet food staff in the world at their disposal. Our ability to blend difficult and unique ingredients makes us not only different from our competition, but better for your business. Our highly skilled nutritionists will provide expertise in custom formulated products and formulation assistance to introduce new products into the industry. Their complete focus is on helping customers solve specific problems in health, nutrition and manufacturing. Trouw Nutrition takes pride in being known as a pet food supplier that manufactures innovative products. We are also the go-to specialists that provide safe solutions for difficult and unique ingredient blends.

No one likes problems...Trouw Nutrition enjoys helping you solve them.

A PARTNERSHIP YOU CAN COUNT ON

At Trouw, we collaboratively build relationships and understand our customer's unique skills and challenges. We offer marketing and communication support to our customers to help them build upon their strategy to sustain their business for the future. Like the world, we know organizations have limited resources so we help them develop marketing and communication materials for their greatest opportunities to increase sales while gaining a competitive advantage.

TRUSTED. PREMIUM. FOCUSED. SAFE.

For a pet food ingredient company who's just as passionate about pets as you are...choose Trow Nutrition as your safe and premium partner for all of your nutritional needs.
