**2Series**

2Series Combo bins are made from 100% virgin materials with a linear low density polyethylene resin for a stronger finished product and performance and are FDA and USDA approved for use as food grade bins. Our reusable bulk bins allow for increased product protection and decreased product tampering.

**4Series**

Our industrial storage containers have reinforced rims, forklift accessibility, supported middle with stepped design for nesting as well as ergonomically correct indentions for de-nesting.

**Laundry Trucks**

F-LT67 Laundry Trucks featuring a plastic bolt-on base that adds strength and gives support to the cart when carrying heavy loads. These carts are designed to support commercial laundries, service hotels, resorts, nursing homes, and hospitals. Our commercial laundry carts are rust-proof and noncorrosive, so you won't ruin materials put in them.

**Plastic Lockers**

Our plastic lockers are ideal for damp or wet conditions, useful for personal storage solution in schools, athletic facilities, food processing plants or pharmaceutical labs.

**Recycling Carts**

These reusable bulk recycling carts increase productivity while maintaining durability and maximizing logistics in over-the-road transport. Recycling carts have a variety of uses for heavy bulk recyclables, from school and government facilities to hospitals and waste management plants.

**Plastic Pallets**

Plastic pallets provide many advantages that traditional wood pallets cannot, including durability, strength, and safety. Plastic pallets are perfect for internal plant transport of corrugated boxes. Plastic skids are the best choice for cleaner processing facilities vs. wood.

**Utility Carts**

UC-Series utility carts are the best multi-purpose heavy-duty utility carts. These plastic utility carts, ideal for material handling, warehouses, offices and restaurants, have a variety of ranging capabilities.
