

Company Overview

More fruits, more forms,
more possibilities.™

OUR COMPANY

Our Corporate Headquarters are located in Selah, WA, in the heart of Washington's apple country. Tree Top, Inc. is a grower-owned agricultural cooperative with more than 1,000 growers throughout Washington, Oregon and Idaho. Today, Tree Top is the leader in the fruit processing industry and operates seven production facilities capable of producing world famous Fruit Products.

Each of Tree Top's business units specialize in offering fruit solutions to their perspective industry.

- Our Foodservice group helps operators, owners and managers meet and exceed the expectations of their guests on a daily basis by providing healthy fruit product solutions. Our knowledgeable Foodservice team tracks the most current food and health trends, and works within both the regional and national scopes of the foodservice industry. Tree Top's Foodservice business unit has the ability to turn your menu from ordinary into extraordinary.
- Our Fruit Ingredient group provides a wide array of fruit ingredients specially packaged in industrial size containers, these bulk fruit ingredients are used by other food and beverage manufacturers. Our customers rely on our product development team to design the optimum fruit ingredient to meet their specific product need. Our customer base depends on Tree Top's superior technology, personalized service and years of experience to deliver safe high quality fruit ingredients.
- Our retail brand apple juice and cider products remain the backbone of our consumer product offerings, but we also make a variety of blended fruit juices. In addition, we offer a wide range of apple sauce available in organic and flavored sauces, as well as an entire line of juice-sweetened apple sauce.
- Northwest Naturals is recognized as one of the industry leaders in the production of specialty blended, all natural, fruit juice concentrates, WONF concentrates, and frozen dairy-style bases, essences and other value-added fruit products.

FRUIT SERVINGS

1 Serving = 2 Tablespoons
@ 2% H₂O = 13.3 Grams

Frozen APPLES

Washington State grows over 50% of the nation's apples. These apples adhere to higher quality standards for sugar content, crispness, and color than apples grown in other U.S. regions. Washington State apple orchardists are leaders in integrated pest management to control insects – effectively reducing or eliminating the need for pesticides.

WONF'S *(With Other Natural Flavors)*

Juice concentrate WONF's are specially formulated blends of various juice concentrates with other natural flavors. These blends of juices, flavors, and acids are designed to match the characteristics of a stated fruit. WONF's are often used to reduce costs and improve flavor.

Frozen **JUICE BASES**

We produce a variety of all-natural, fat-free Granita, Smoothie, Juice Bar, Sorbet, and Sherbet Bases composed of fruit juice concentrates, fruit purées, acidulants, and natural flavors. Our bases provide a fresh, nutritious, and tasty component to any frozen dairy or dairy-type formulation.

**NORTHWEST
NATURALS®**

Stock vs. Custom Formulation

Northwest Naturals offers a variety of products that are considered off-the-shelf or standard items. These products are typically available year-round and require less minimum order quantities than custom formulated items.

We understand your product requirement may need to be specifically formulated for your unique application. We welcome the opportunity to create a custom formulation for your next product.

NORTHWEST NATURALS®

OUR PROMISE

The Northwest Naturals' team are dedicated to excellence and committed to providing value-added service in a proactive, flexible and efficient manner. We realize the quality of our product and process performance directly impacts your ability to acquire materials needed to make your product stand out in the crowd. We believe your satisfaction is a direct reflection of our effectiveness as an organization.

FRUIT SWEETENERS

Mixed Fruit:

A blend of different fruit juices designed so no one fruit flavor is identified in the blend.

Frutex Syrups:

Juice concentrates that have been processed so there is little or no color, flavor, or minerals. Typically used to replace HFCS for label purposes.

ESSENCE *Standardized*

Pure fruit aroma recovered from the fruit juice concentrate process.
