

NORTHLAND CHOICE

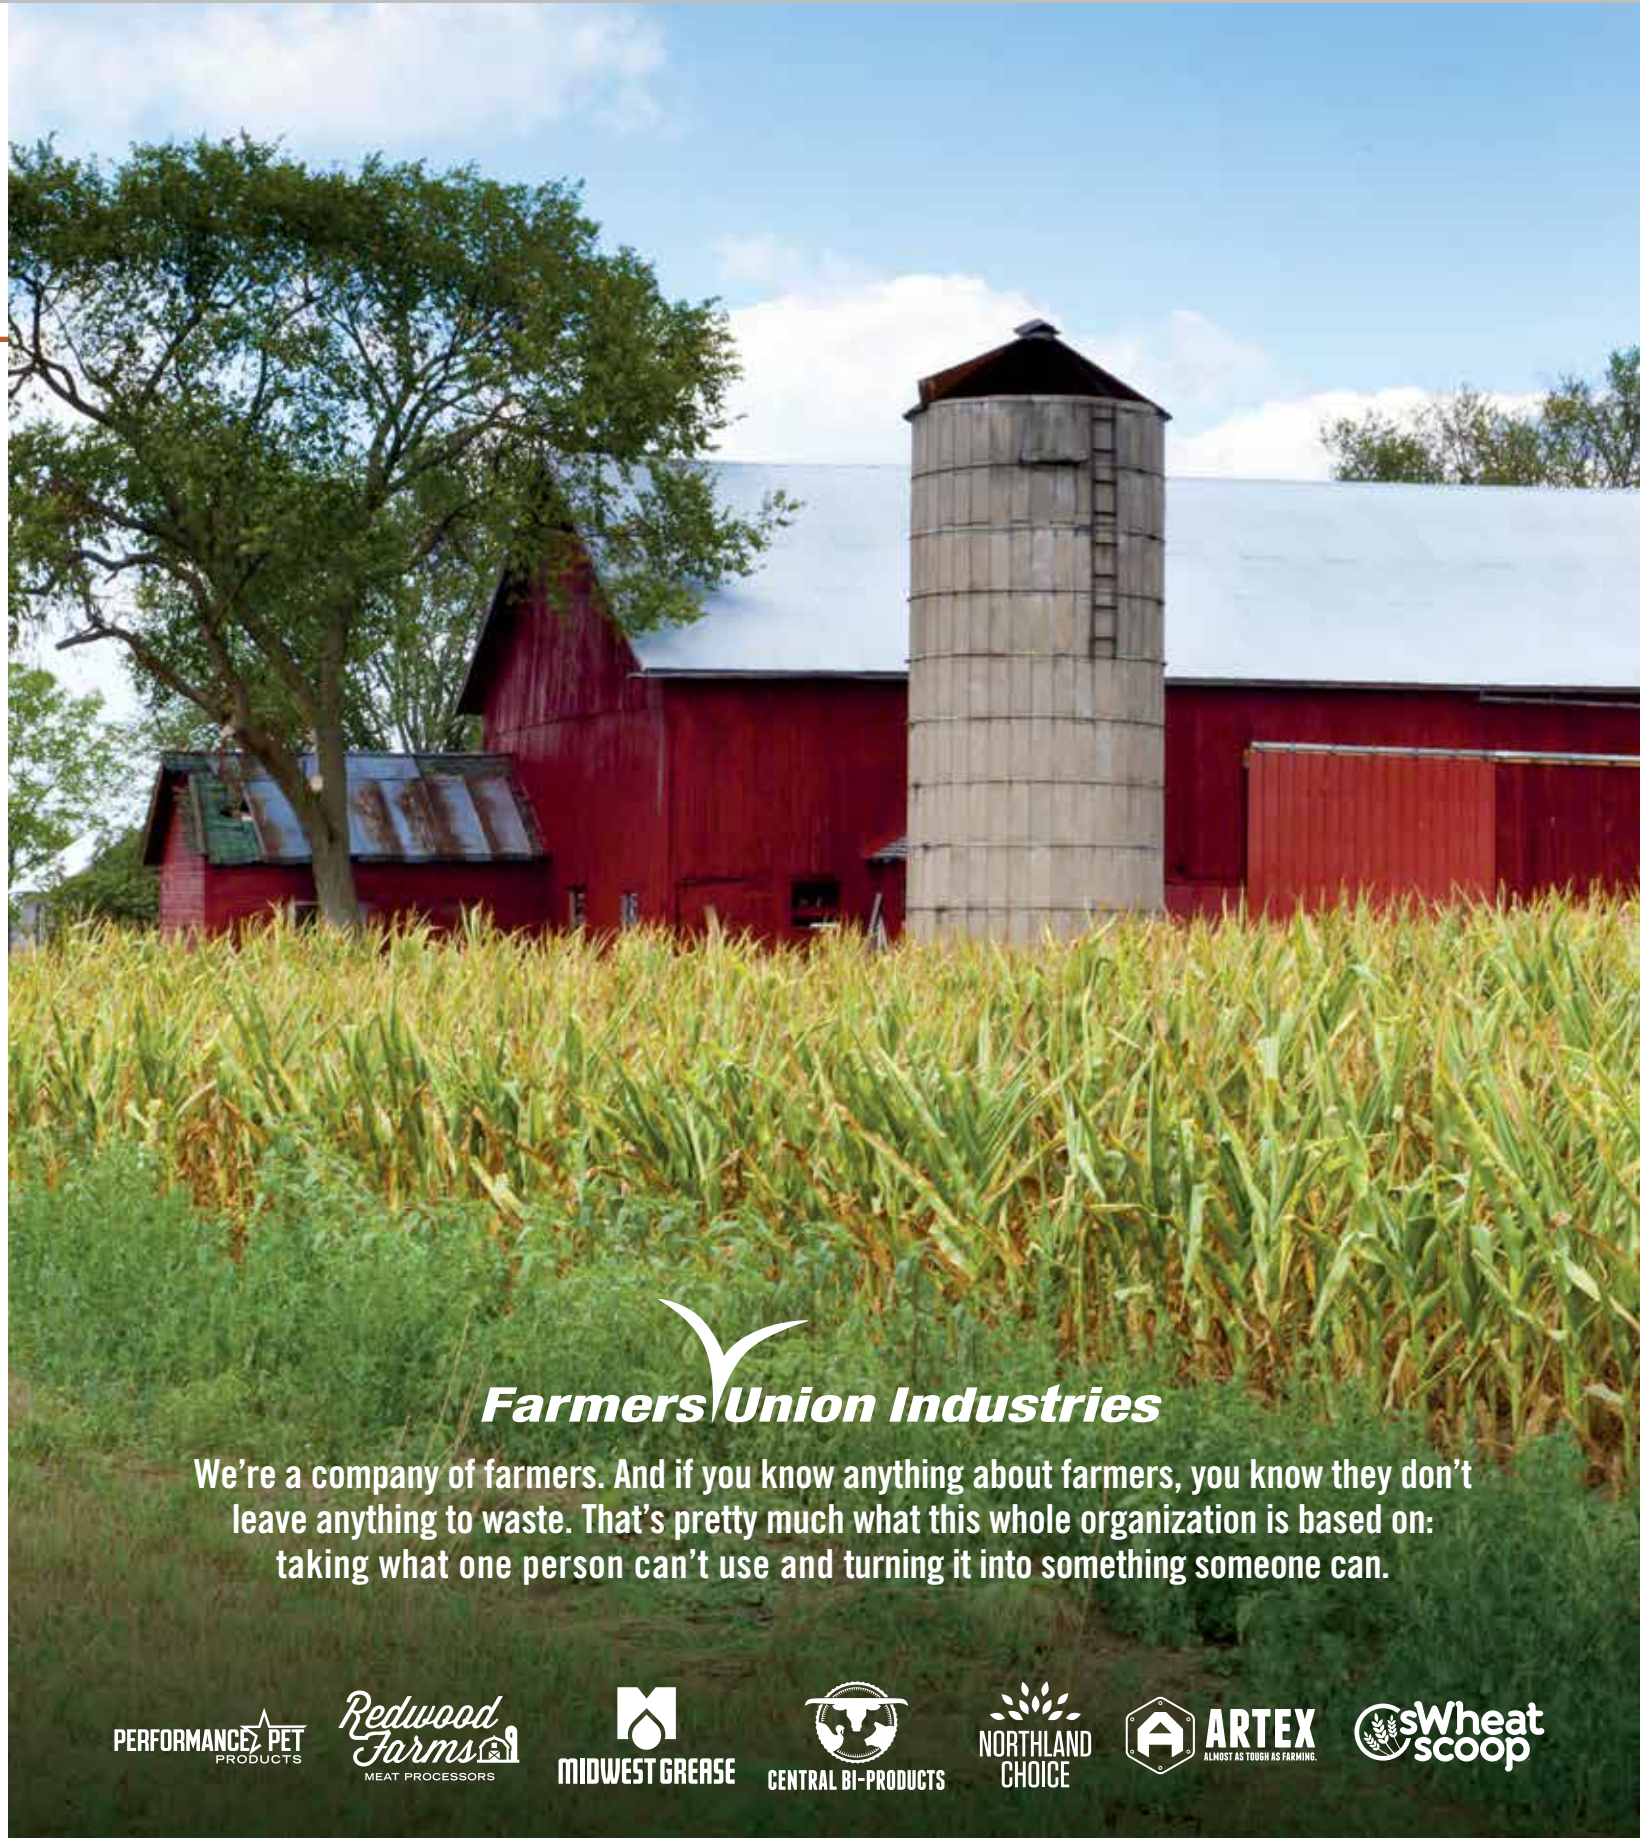

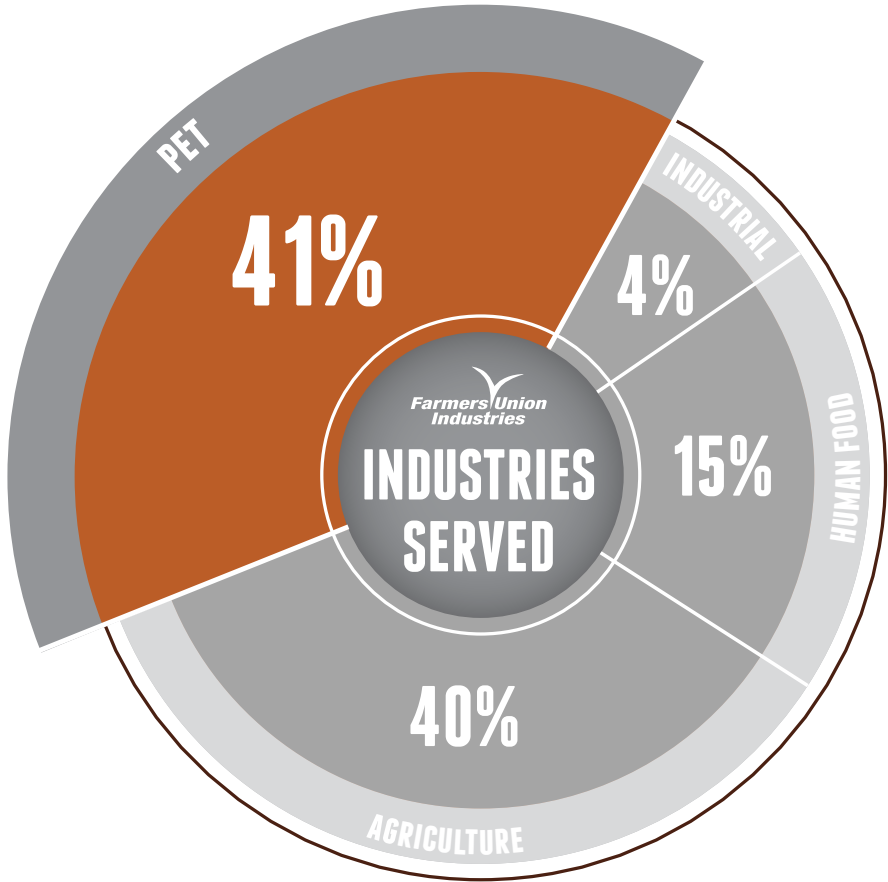

PURE PERFECT PROTEIN.

**PURE
PERFECT
PROTEIN**

We're Part of a Bigger Family.

Northland Choice is uniquely positioned to be a value-added partner to pet food manufacturers across the country. Through our parent company – Farmers Union Industries – we have the ability to tap into additional resources and expertise through our family of companies. With over 40% of its business dedicated to the pet industry, Farmers Union Industries offers a strategic advantage to Northland Choice customers that you won't find anywhere else.

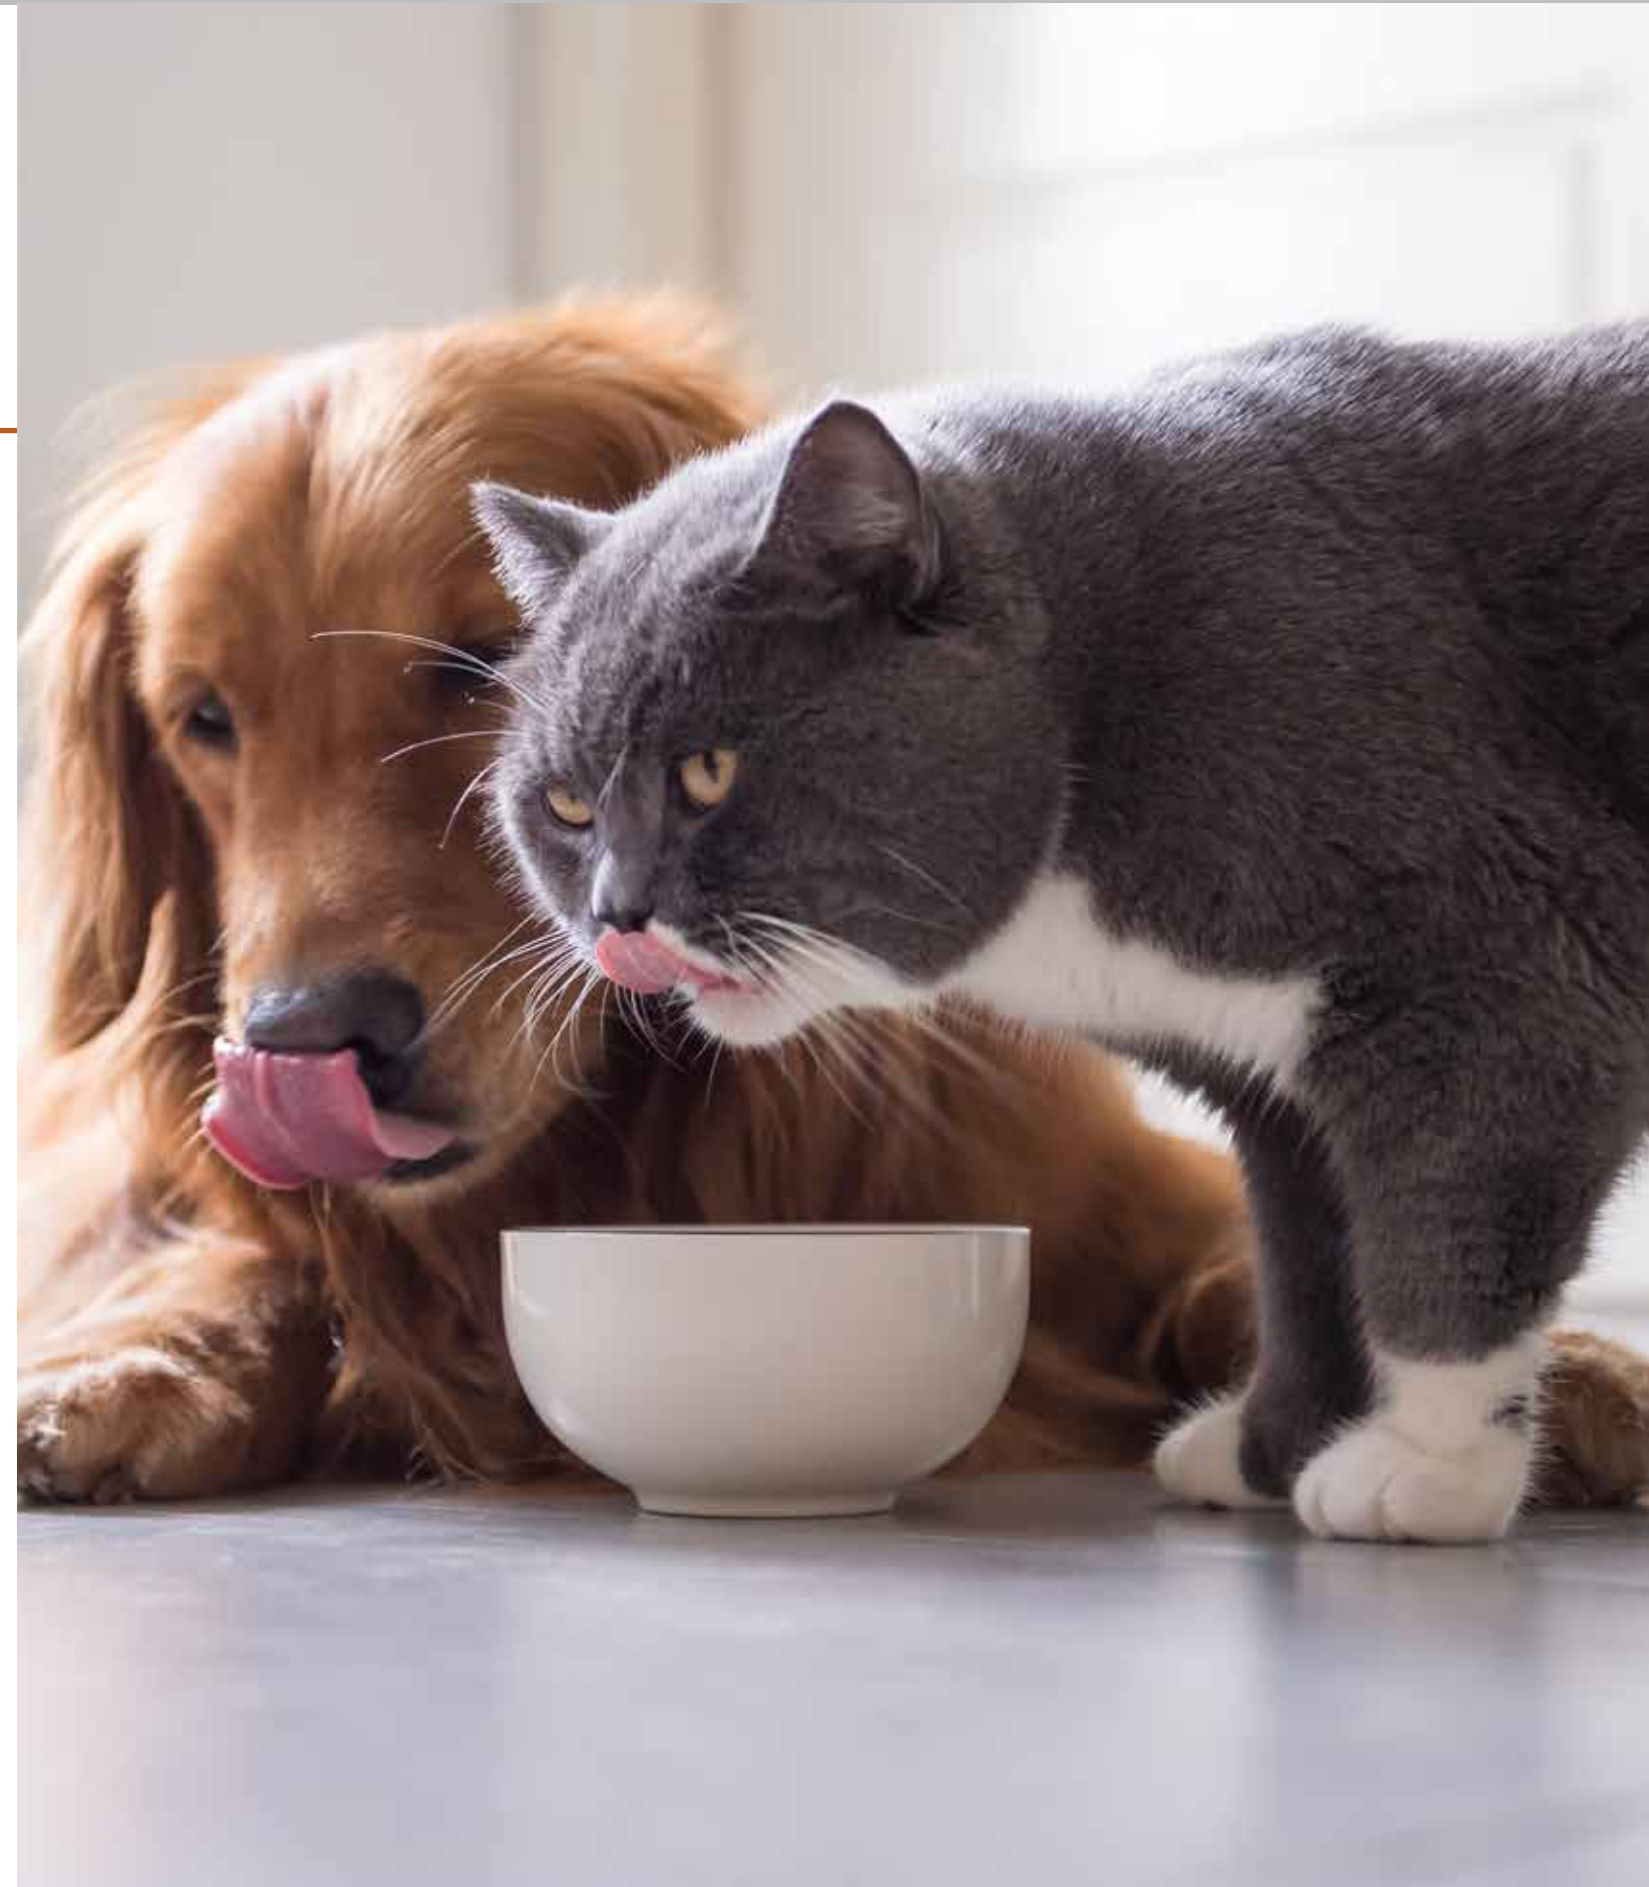

Farmers Union Industries

We're a company of farmers. And if you know anything about farmers, you know they don't leave anything to waste. That's pretty much what this whole organization is based on: taking what one person can't use and turning it into something someone can.

Supplying Pet Food Manufacturers with the Best Protein Since 1988.

We make the finest protein-based pet food ingredients anywhere using the highest quality raw materials we can find. Our frozen and fresh-chilled proteins are the ingredients you're looking for to make pet food that pets want. Operating three facilities in Minnesota, Northland Choice handles only material from USDA-inspected facilities, ensuring products that are **fresh, safe, and nutritious** – meeting the standards of owners and pets alike.

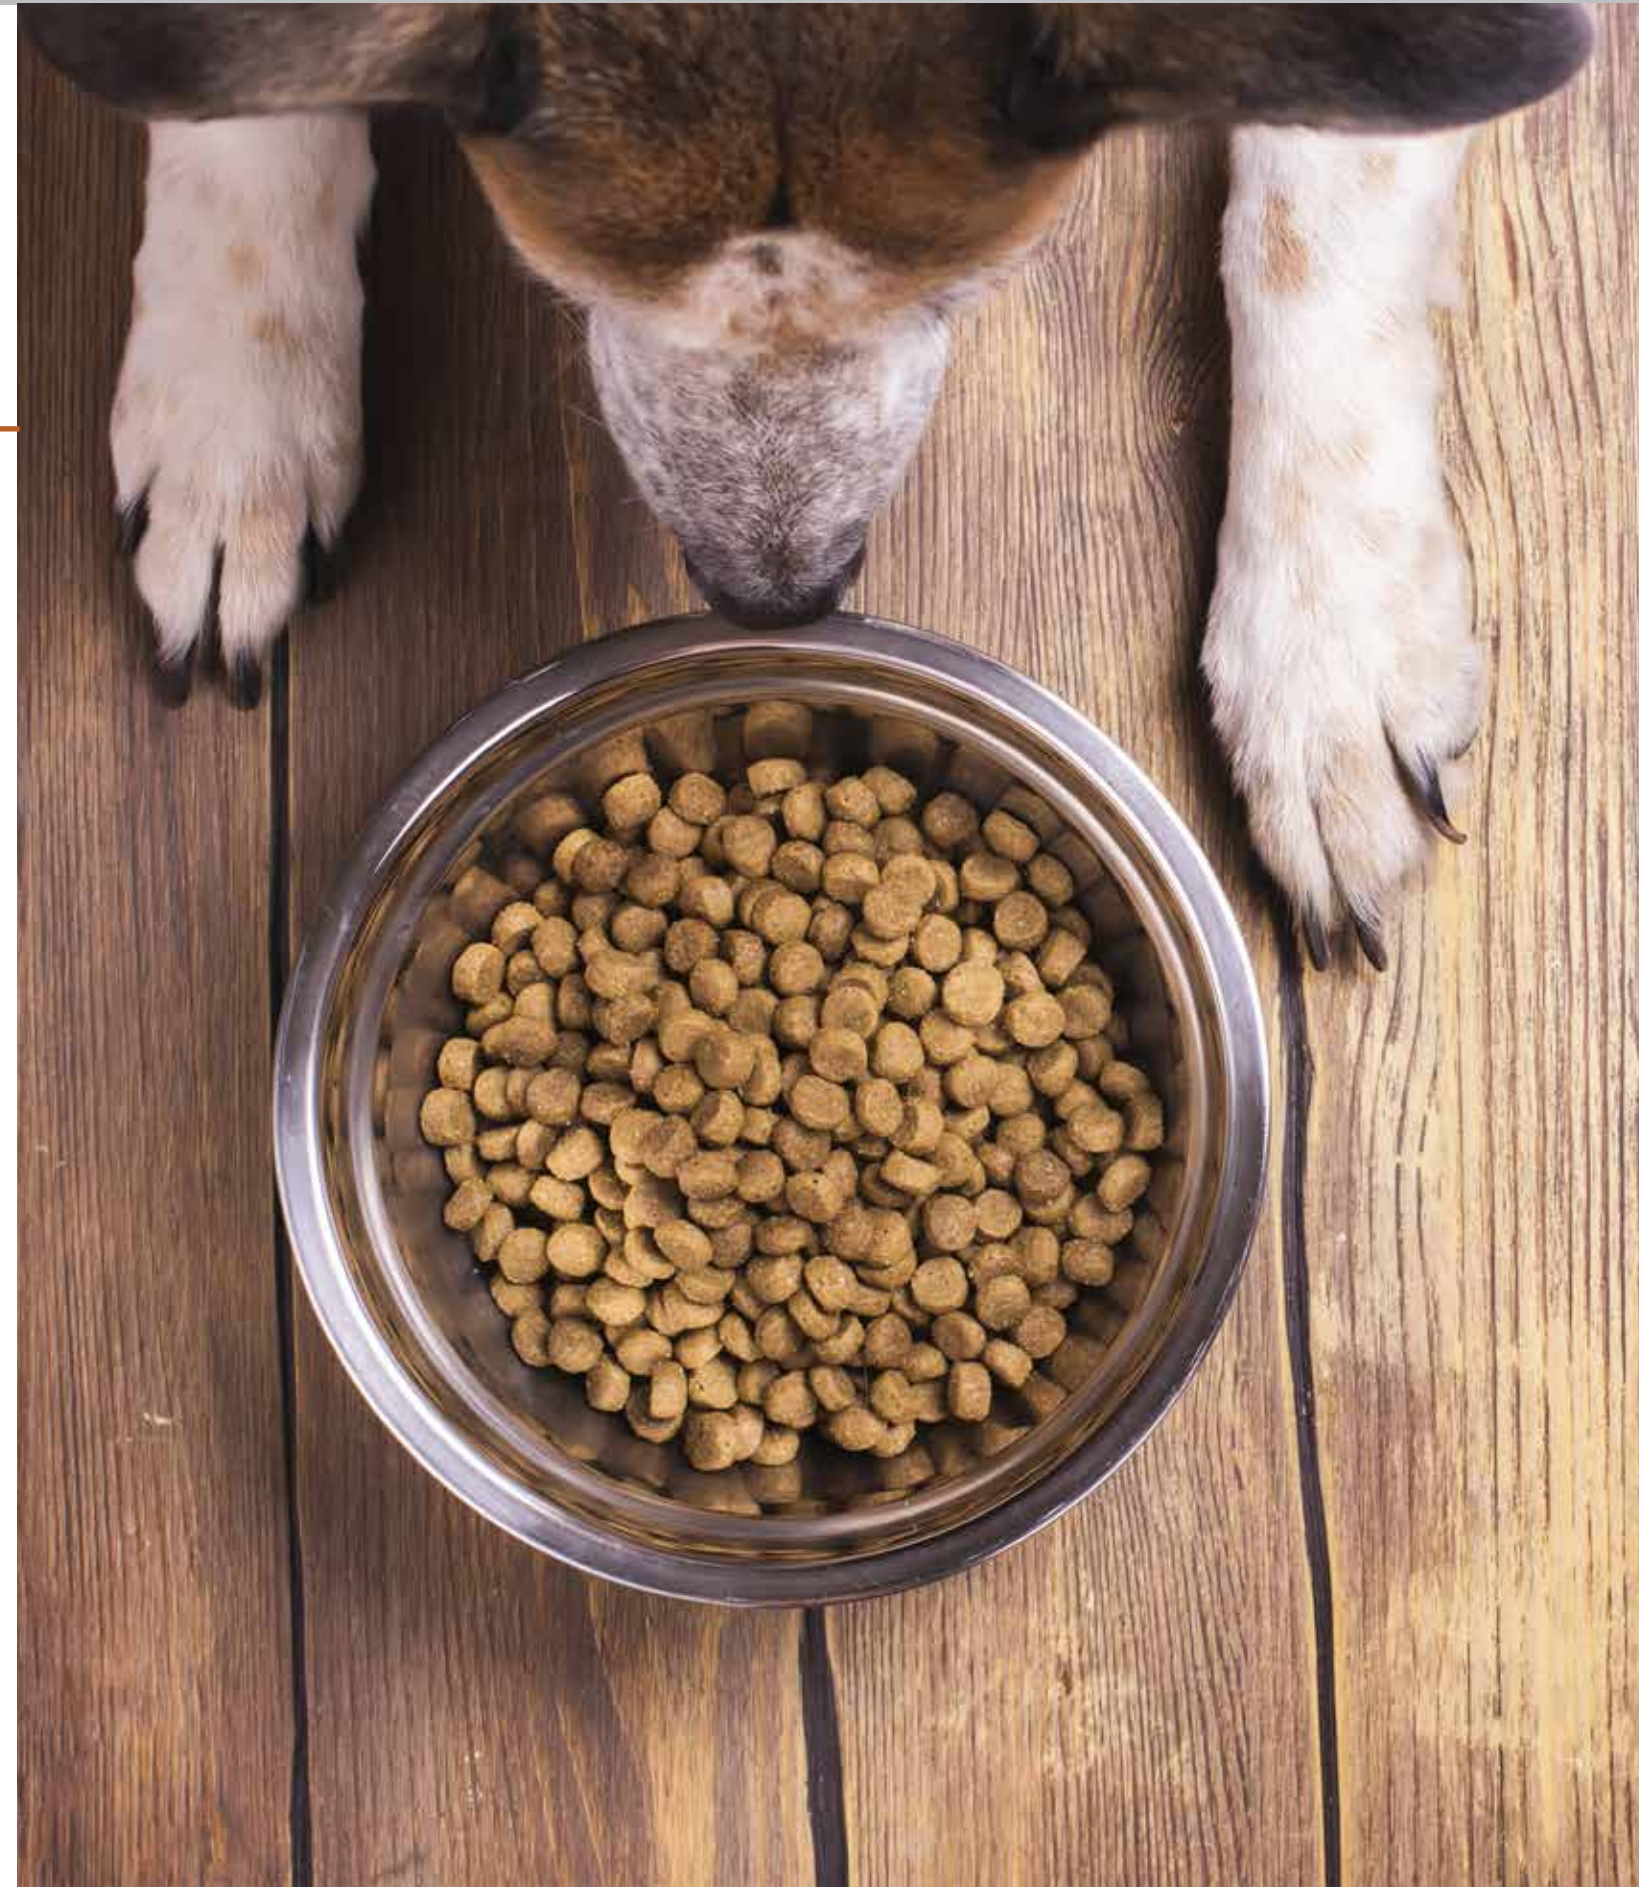

Great Pet Food Starts with Great Ingredients.

WE START WITH THE BEST RAW MATERIALS AVAILABLE.

Northland Choice takes fresh poultry from USDA-inspected edible facilities and converts it into a variety of products suitable for multiple pet food manufacturing processes.

YOU GET PURE, PERFECT PROTEIN - EVERY TIME.

Our product portfolio consists of a variety of chicken and turkey proteins available in multiple product formats including: whole ground, mechanically deboned, hearts, livers and viscera. Whether you need frozen blocks or fresh-chilled product, Northland Choice can supply you the protein you need in the form your production setup requires.

The Northland Choice Difference

CONSISTENCY IN EVERY BATCH, EVERY LOAD, EVERY TIME.

Whether it's hitting the right protein specification or knowing your truck will be on time, you can count on Northland Choice to deliver what you need, when you need it.

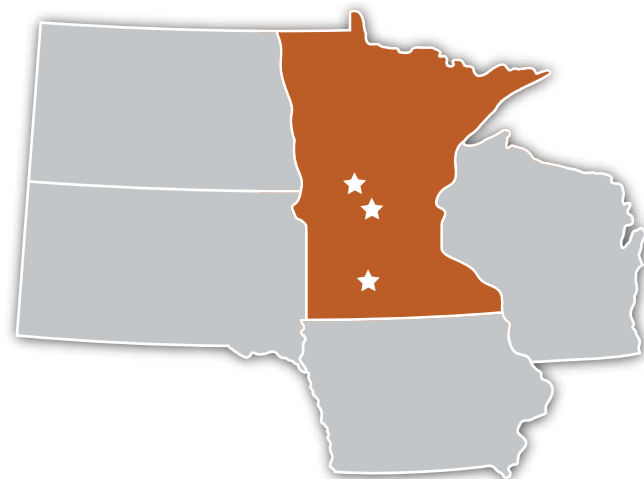

QUALITY THAT BEGINS AT THE SOURCE.

Located in the heart of poultry production, Northland Choice is strategically located in close proximity to our suppliers. Using only material sourced from USDA-inspected edible facilities allows us to provide the freshest, most nutritious protein for your products.

SAFE PRACTICES ENSURE SAFE PRODUCT.

Northland Choice strives to ensure every part of our process meets or exceeds industry standards. All of our facilities are SQF audited and EU APHIS certified.

Northland Choice has three facilities dedicated to producing pure perfect protein ingredients.

If our pet food ingredients were any fresher, they'd still be walking around the farm.

REAL CHICKEN. REAL TURKEY. REAL GOOD PROTEIN.

Today's consumers are demanding real ingredients in their pet's food - and that's exactly what you'll get with Northland Choice. We produce only real chicken and turkey proteins - never byproducts. We start with the freshest possible poultry parts and minimally process them to ensure you get the purest protein ingredients possible. Available either fresh-chilled or frozen, Northland Choice can provide a variety of poultry protein ingredients that can be easily integrated into your pet food production process. Whether you produce wet food, kibble, treats or raw pet food - Northland Choice has what you need.

CUSTOM BLENDS

We know your products and your customers need specific nutritional profiles. That's why we work with you to provide the right product, the right mix, the right specs - so your pet food hits the mark every time.

PURE PERFECT PROTEIN.

Fresh & Frozen Chicken

Cats and dogs may fly the coop to get a taste of our chicken—it comes to us fresh from USDA-inspected facilities just down the road. These aren't just scraps, though—we take whole backs, neck, hearts, livers and other meat-rich parts and expertly combine them to achieve the needed specifications.

FRESH &
FROZEN CHICKEN

	Moisture%	Protein%	Fat%	Ash%
Whole Ground Chicken	62 - 72	9 - 19	9 - 20	<5
Mechanically De-Boned Chicken	65 - 72	>12	14 - 17.5	<2
Chicken Giblets	75 - 80	10 - 15	6 - 13	<1
Chicken Heart/Liver Mix	68 - 78	6.5 - 12.5	11 - 15.5	<2

Fresh & Frozen Turkey

Pets will gobble-gobble up your products when using Northland Choice turkey. After we convert fresh turkey parts into usable forms such as whole ground, mechanically deboned or whole hearts and livers, the sky's the limit for incorporating it into your final product.

FRESH & FROZEN TURKEY

	Moisture%	Protein%	Fat%	Ash%
Whole Ground Turkey	62 - 71	>12.5	9 - 18	<5.5
