

WAREHOUSING SERVICES

Complete Warehouse Solutions for Your Supply Chain

Our complete warehouse solution can be customized to the needs of our clients while maintaining compliance, security, and operational integrity at this critical stage of the distribution chain. Our solutions include warehousing, transportation for all modes, warehouse management system (WMS), and food grade facilities.

WAREHOUSING

Through our complete warehouse solutions, we provide services as well as solutions for new warehouses. Our warehousing services offer clean and secure sites to ensure product is housed in the best environment and is in compliance with the specific needs of each client. We offer both short- and long-term warehousing options with service across the country.

TRANSPORTATION FOR ALL MODES

Since we offer transportation management solutions that encompass services for all modes, our team provides complete distribution chain solutions for you that extend beyond warehousing. Whether your needs are Less than Truckload, Full Truckload, International Air & Ocean Freight, or multi-modal (including Rail, Domestic Air, Expedited, and more), our People-Inspired Shipping Team works with you to develop complete solutions to best optimize your distribution chain.

WAREHOUSE MANAGEMENT SYSTEM (WMS)

Each client is provided with secure access to their real-time inventory levels, including date received, quantity on-hand, shipped date, purchase orders, and lot codes. Our WMS includes a robust reporting system, allowing for monthly, quarterly, and yearly accounting of activity.

FOOD GRADE WAREHOUSING

For our Clients in the Food Processing industry, we offer complete solutions, including warehousing, to meet your unique needs. When needed, we register our warehouse facilities as Food Grade Warehouses with the U.S. Food and Drug Administration (FDA) and meet all of the requirements. We use only approved pest control materials that meet the needs for Organic food storage. In addition, we make tremendous efforts toward energy efficiency to reduce the environmental impact of storing your products.
