

Nutritional Lipids, Dairy & Cheese Flavors For Pet Food and Treats

Are You Looking For The Highest Quality Ingredients For Pet Food and Treats?

Our Caldic experts can help you boost the nutritional profiles of your pet food and treats with the addition of healthy lipids in easy to use formats. Nutritional lipids come in the form of convenient, high stability powdered emulsions.

These highly functional systems help to mask negative flavor and stability impacts of other active ingredients like vitamins, herbs and minerals. These systems are capable of achieving your desired flavor, body, texture and appearance of your finished applications.

Nutritional Lipids:

- High Caprylic MCT Oil
- Conjugated Linoleic Acid
- High Oleic Sunflower Oil
- High Linoleic Sunflower Oil
- MCT Oil
- Evening of Primrose Oil
- Avocado Oil
- Coconut Oil
- Flaxseed Oil
- Red Palm Oil
- Borage Oil
- Tea Tree Oil

Benefits of Nutritional Lipid Powders:

- ✓ Delivers nutritional value of the lipid in applications where the convenience of powders is key
- ✓ Enhanced flavor/texture/creaminess
- ✓ Improved appearance (especially opacity and viscosity)
- ✓ Better control of delivery and release of fat and other components
- ✓ Adds stability to finished product

Enhance the flavor profile of any pet food or treat with quality dairy powders and solids.

Dairy Powders:

- Dry Sour Cream
- Dry Cream
- Dry Acid Whey
- HiPro Cream
- Buttermilk Solids
- Cultured Dairy Solids
- Cream Powder
- Whole Milk Powder
