

Think Green

Peel Plastics is delighted to offer our new portfolio of Think Green recyclable pouch solutions. Our recyclable packaging solutions are designed with the same processability, protection and reliability as our standard mixed-material packaging solutions. Think Green recyclable pouches have been proven on filling lines, through supply chains and on the retail shelf.

This new recyclable pouch portfolio represents a significant step in the development of packaging solutions that will contribute to a better and brighter tomorrow. Call us today to learn how you can get Think Green solutions running in your production facility.
