

Roasted Ingredients

The title "Roasted Ingredients" is centered in a green, sans-serif font. The background is black with faint white line drawings of various vegetables: two carrots on the left, two peas in their pods on the right, a bunch of asparagus on the far left, a head of cauliflower in the center, and two onions on the far right.

Roasted Ingredients

Silva's production facility in Illinois also produces roasted ingredients. This additional process can be added in order to offer a unique appearance and flavor to our ingredients. We have the capability to produce a light roast, or a deeper cooked product to offer a darker look and flavor.

CONFIDENCE IN THE PROCESS
