

PROBIOTICS

Digestive System Support

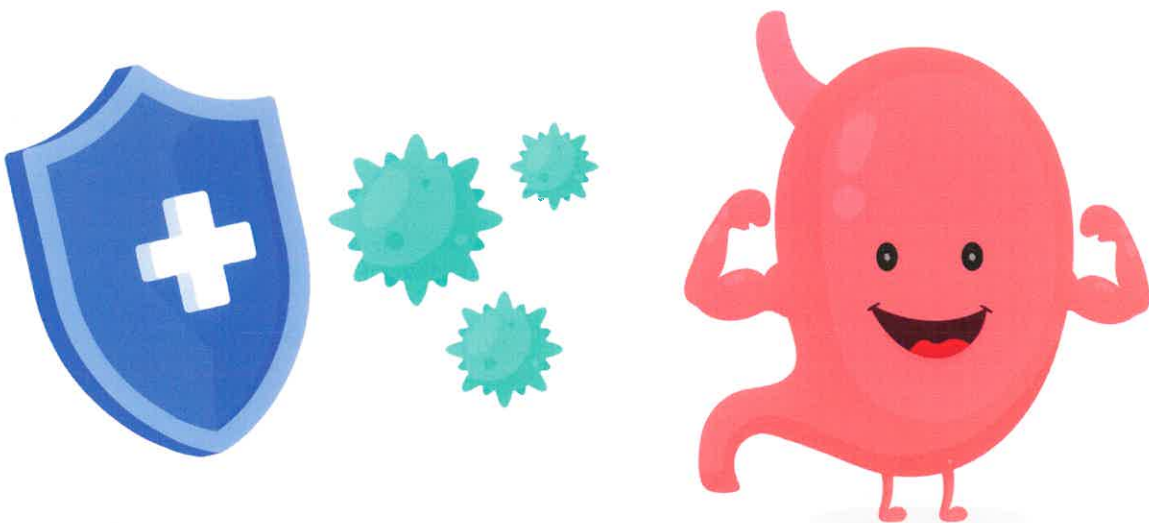

SRC Probiotics are *Bacillus* strains known as beneficial bacteria. These good bacteria help the body maintain a healthy community of microorganisms known as the microbiome. All species have a microbiome population in the GI tract. Our line of *Bacillus* strains help balance and support the gut microbiota.

It is well known that more than 70% of the immune system resides in the digestive system. Probiotics like the Bacillus strains can have a positive influence on the host's immune system. These beneficial microbes assist in displacing harmful pathogens or bad bacteria in the gut. A higher population of good bacteria positively influences the immune system.

Maintaining a healthy digestive system by supplementing with probiotics supports improving mood and overall health.

Probiotic Benefits:

- + Improved Digestion
- + Produces bacteriocins to inhibit pathogens
- + Stimulates epithelial mucin production
- + Enhances intestinal barrier function
- + Immune system stimulation
- + Aids in manufacturing of enzymes

AVAILABLE PROBIOTICS

SRC Bacillus coagulans

SRC Bacillus subtilis

SRC Bacillus licheniformis

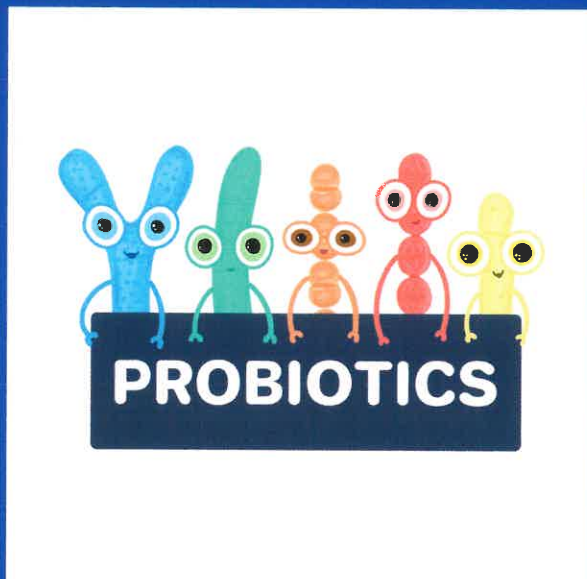

SRC Bacillus amyloliquefaciens

SRC 4 Strain Probiotic Blend

SRC 5 Strain Probiotic Blend

SRC PB Blend

Our Probiotics are tough spore forming bacteria that have a protective shell to help shield them from the harsh environment of high heat processing and stomach acid. This unique characteristic enables these beneficial bacteria to survive multiple difficult battles to reach the intestinal tract of the host where they are needed.

Product Information

Direct fed live microbes intended to assist the body's naturally occurring intestinal microbiota.

Bacillus coagulans 100	2 billion CFU per gram
Bacillus subtilis 26	2 billion CFU per gram
Bacillus licheniformis 5	2 billion CFU per gram
Bacillus amyloliquefaciens 17	2 billion CFU per gram
SRC 4 Strain Probiotic Blend	2 billion CFU per gram
SRC 5 Strain Probiotic Blend	2 billion CFU per gram
SRC PB	3.2 billion CFU per gram

Application: Pet Food, Pet Treats, Dietary Supplements, Livestock Feed and other food products.

Packaging: 25 Lb. Bucket
