

# Company Overview

**BETTER AUTOMATION PROCESS**

to give you better solutions

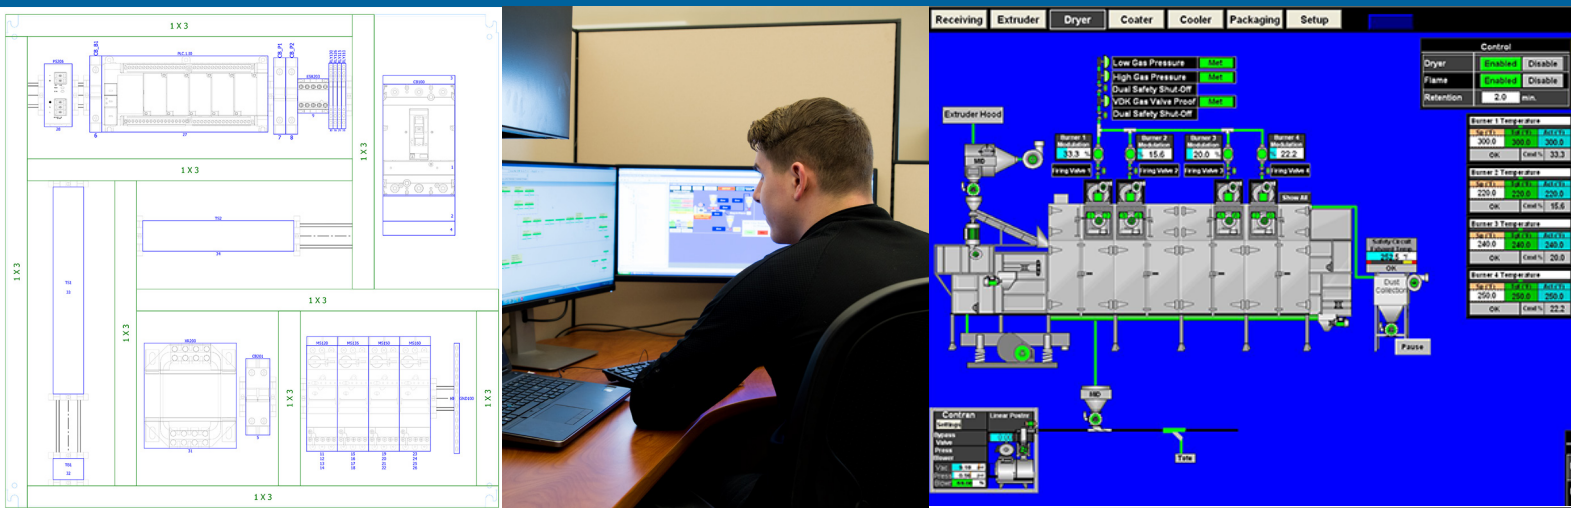

**NorthWind**<sup>®</sup>  
Technical Services

# The NorthWind Advantage

In addition to programming and design, NorthWind offers extensive process expertise. With over 140 years of process experience, 10 different disciplines on staff and multiple OEM partnerships, we can deliver a fully functional system on time, the first time.

With experience in the **Plastics, Baking, Pet Food, Agriculture, Textile**, and **other industries** throughout the United States and in several countries around the world, the NorthWind Advantage will help you achieve success.

We have a dedicated service team that is available to answer your questions and for remote support to keep your plant running. Our engineers are highly trained so that they know as much about your process as you do.

## Design

A successful project starts with good design. NorthWind drawing packages provide the foundation for your success.

- Panel layout & Design Drawings
- Process flow & instrumentation drawings
- 3D mechanical stack-up plant layout

## Programming

NorthWind's streamlined, repeatable and well-documented programming services include:

- PLC programming
- HMI configurations
- SCADA & database integration
- Custom programming.

## Panel Building

Panels are designed and assembled utilizing touch-safe components, efficient panel layout, circuit analysis, and code compliance in NorthWind's U.L. Certified, 10,000 sq. ft. manufacturing facility.

## Field Service

NorthWind's dedicated Service personnel are readily available to provide a full range of field support:

- Remote & on-site system support
- Contract service & maintenance
- Project management & supervision

# PlantLOGIX™

NorthWind

The PlantLOGIX Suite of Software is designed to streamline & simplify factory processes allowing you to get the most out of your automation system. The PlantLOGIX Suite includes:

**AlarmLOGIX®** - Data tracking & alarm management software

**BatchLOGIX®** - Recipe management & reporting software

**BatchMATE®** - Automated micro ingredient hand add station

**NorthWind PlantLOGIX™ Security** - Multi-application user access management software

## Electrical Installation

Our team of trained electricians is dedicated to delivering efficient, safe installations, starting with the estimating and pre-construction planning phase all the way to the final installation. A quality NorthWind installation, delivered the first time, every time, gives you the advantage of a quick startup, less downtime and a smoother process when the job is finished.

## Certification

NorthWind is proud to partner with and is certified by the following organizations

### 2019 System Integrator of the Year

We are proud to announce that we have been named Control Engineering Magazine's 2019 System Integrator of the Year. This award is a tribute to the hard work and effort of the entire NorthWind Team.

Thank you for your interest in NorthWind. We are committed to helping our customers improve their process through automation & cutting edge design. For mor information prlease call or visit us on the web at:
