PURPOSEFUL. POWERFUL. PACKAGING.

plaspack.com/sustainability

We're Committed

Our goal is to provide you with innovative packaging solutions and the functional features that consumers love!

Our high-quality printing and beautiful graphics will give your products distinctive shelf-appeal and deliver a powerful retail impact.

Our Mission

We are dedicated to enriching people's lives and the products that they use through Purposeful, Powerful, Packaging.

Our Core Values

The Customer Wins

We have a Passionate Persistence for Results

We strive to Make the Best Better

Please and Thank You; we appreciate your business!

About Thrive™

Thrive is our platform for a variety of award-winning sustainable Flexible Packaging solutions.

We are dedicated to supporting your Sustainability mission and offer a toolbox of flexible packaging alternatives that brand-owners and consumers can feel good about.

Thrive products are available in a variety of structures, including all-PE “Recyclable” films (through the How2Recycle Store Drop-off Program), “Post-Consumer Recycled” (PCR) content, a combination of Recyclable and PCR for a powerful combination claim, and “Renewable Materials” (non-petrochemical) such as corn, sugar or potato, and “Compostable” materials.

Most of the Sustainable claim options are available in Rollstock, Stand-Up Pouches, Box Pouches, Pinch-Bottom Pouches, and Large lay-down bags.

PURPOSEFUL. POWERFUL. PACKAGING.

We Believe in Quality:

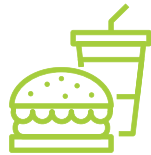

Thrive™ Packaging Options

Superior 11-color printing, including unique coatings and textures.

The Flexible Packaging Advantage

Product Protection: Flexibles resist damage, breakage, and reduce spoilage with proven high-barrier protection and varied closure options.

Efficient Packaging: In comparison with rigid packaging materials, flexibles use only a small amount of material, reduce product and transportation costs, save on warehouse space, and increase the quantity of product that can be shipped on a per-truck basis.

Features Explosion: We offer high-quality graphics, textured print, shaped pouches, and innovative closures!

Ready to Thrive with Us?

- Unparalleled and Responsive Service
- Innovative, Engineered Solutions
- Superior Flexographic Printing
- Our products and materials are sourced and produced in the USA
