

# IMMUNE & GUT SUPPORT

As pet owners continue to demand similar foods for their pets as themselves, functional ingredients seem likely to continue moving onto the ingredient decks of pet food and treats. Supporting immune and gut health is a top priority for pet owners.

## **Salubre™ Direct Fed Microbials**

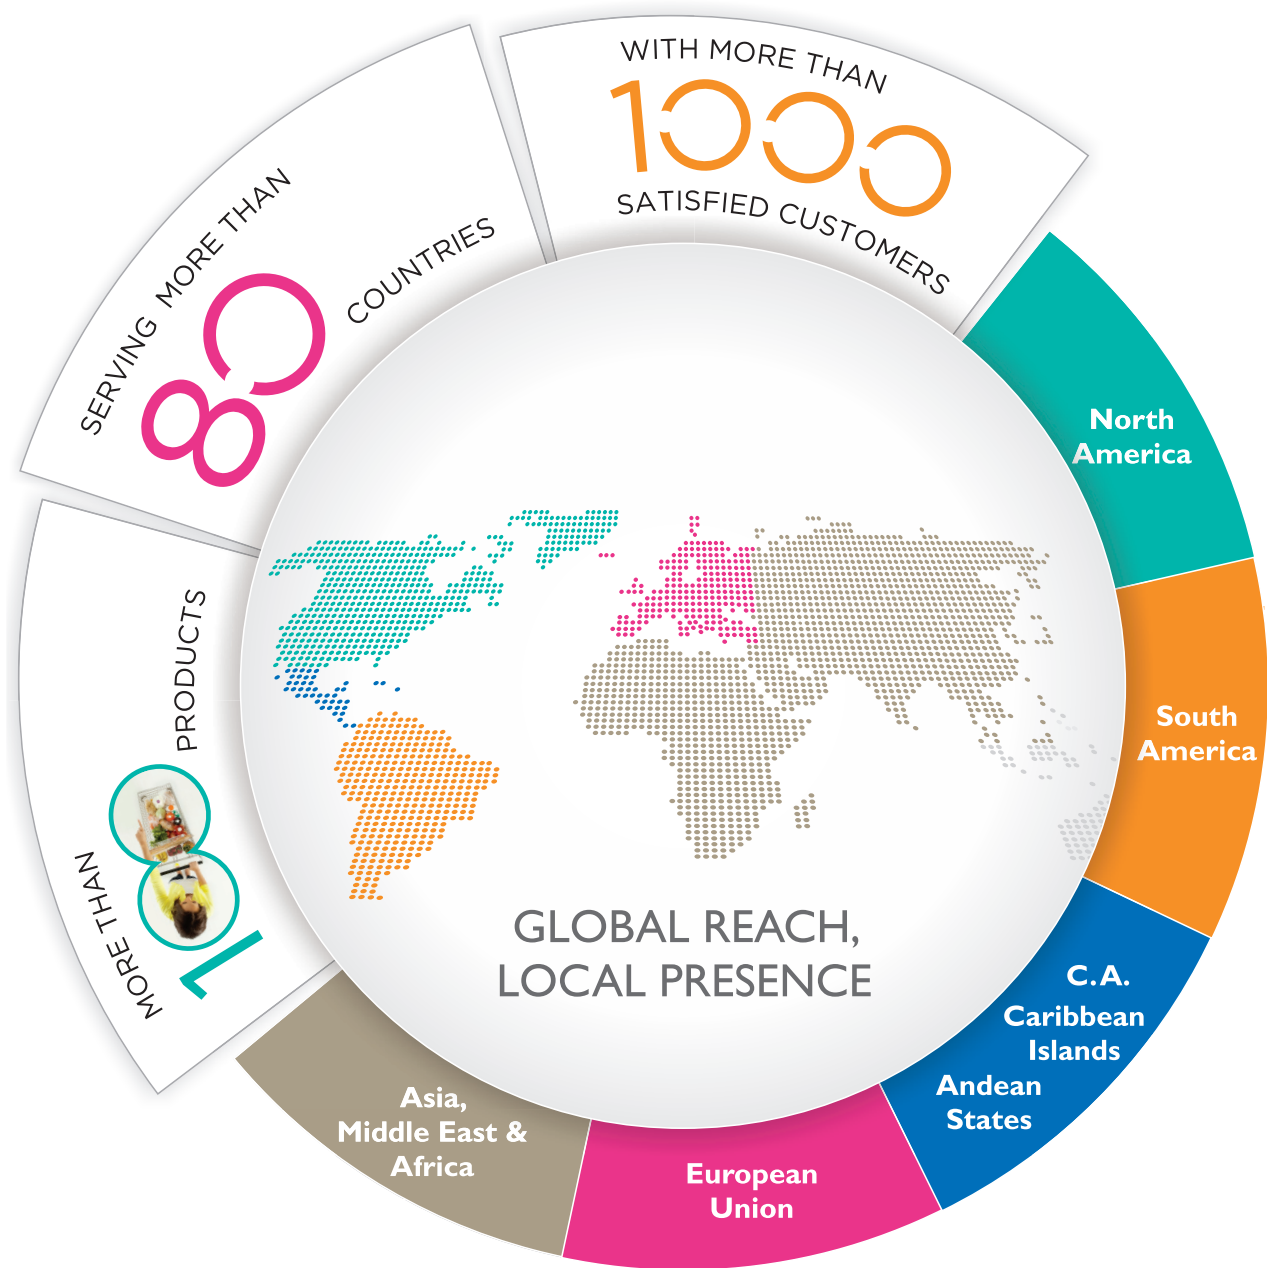

Supporting good digestive health also supports a healthy immune system. Developed specifically for use in dog and cat foods. Formulated with various blends of yeast, bacteria and other proprietary ingredients. Salubre promotes the production of good gut bacteria, improves fiber digestion and reduces inflammatory responses.

## **Life Lovers™ Turmeric and Turmeric Extract (Curcumin extract)**

Turmeric has been touted as a “Super Herb” and clinical trials over the recent years have shown anti-inflammatory health benefits in dogs and cats.

- Turmeric Powder – 3% to 5 % content (Standard, Organic or Fermented)
- Turmeric Extract – Curcumin 95%
