## Repurposing By-Products: Adding Value, Reducing Footprint

By partnering with International Ingredient Corporation (IIC), pet food companies can actively contribute to a better global food source and a greener planet. IIC upcycles excess raw and processed food ingredients and puts it back into the food chain safely and securely.

Not only does this effort significantly reduce harmful effects on the environment, it also helps pet food companies recover some costs for products that would have otherwise gone to waste.

# SUSTAINABLY- SOURCED PET FOOD INGREDIENTS

- IIC upcycles nearly **2.5 Billion pounds** of ingredients from food manufacturers annually to enhance pet food and animal feed formulations. These products are repurposed to **avoid waste** and **carbon emissions**.
- IIC sustainable ingredients help pet food companies formulate **premium-quality pet foods** with high **nutrition** content, **palatability**, and **supply chain security**.

Our experts work with food manufacturers to identify and evaluate the nutritional value of residual food products.

## REPURPOSING FOR A PURPOSE

We use sophisticated food and feed science to create formulations for maximum nutrition and palatability.

Co-products are processed into high-value ingredients for pet food and livestock feed.

## Environmental Impact:

**2.5 BILLION**

AVOIDED LANDFILL

POUNDS OF CONSUMABLES DIVERTED FROM LANDFILL

**675,000**

AVOIDED GREENHOUSE GASSES

METRIC TONS OF CARBON DIOXIDE AVOIDED

**81,250**

METRIC TONS OF METHANE GAS AVOIDED  
(21 TIMES MORE TOXIC THAN CO<sub>2</sub>)

GREENHOUSE GASSES

**UPCYCLING CO-  
PRODUCTS IS THE  
EQUIVALENT  
BENEFIT OF:**

Removing 584,668 PASSENGER VEHICLES  
from the roads for one year

*OR*

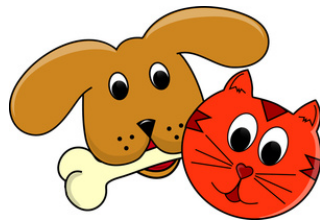

CO<sub>2</sub> emissions due to ANNUAL ENERGY USE  
for 312,284 HOMES

*OR*

Carbon sequestered by 3.5 million  
ACRES of U.S. Forests in one year

*AND*

Food and treats for millions of  
HEALTHY, HAPPY PETS!

## **IIC Mission Statement**

**To have a positive impact on the world by managing and processing food industry co-products into value-added animal and pet food ingredients.**

# THANK YOU!
