

PRO-EVO® Mini

Multiwall Paper Bag for Pet Applications

PRO-EVO® Mini is a premade self-opening sack that offers easy filling, easy opening and “magazine quality” graphics. Available in 100% recyclable paper or a customized multiwall paper structure, these bags can service a variety of applications with customizable barrier strengths to best protect your product.

The square-bottom design allows PRO-EVO® Mini to stand upright for a stunning shelf display. To further enhance shelf appeal, our Signature Surfaces – a unique tactile experience for consumers - or scuff resistant coating can be added.

Sized for smaller portions and portability, these multiwall bags are ideal for fill weights of 10lbs (4.5kg) or less. Both Premium and Classic options are available to meet the needs of larger fill weights.
