

Corporate
Capabilities

We're built to help you succeed.

ProAmpac is redefining innovation through collaboration within our own company and with our partners.

This collaboration among brand owners and ProAmpac packaging experts generates fresh thinking, accelerates advanced-technology, and increases speed-to-market, package customization and consumer differentiation.

Our capabilities make us your preferred partner:

- Material science beginning with blown film
- Advanced extrusion & adhesive laminations
- Quality pouch & bag converting
- Award-winning graphics & printing
- Innovative retail packaging design
- Leading-edge materials science and technology

Innovation isn't just something we talk about, it's the way we do business.

GREG TUCKER, CEO

At ProAmpac, sustainability means being a good neighbor and looking to the future.

Using advanced technology, we are developing and innovating sustainable flexible packaging products. By reducing energy use and the environmental impact of our facilities, ProAmpac is engaging our employees, collaborating with suppliers and customers, and teaming with neighbors to make the communities where we operate—and our packaging—even better.

We call this ProActive Sustainability.™
