## OMEGA-3: 30%

**ANCHOVY DEODORIZED FISHOIL** is a physically refined and low-temp vacuum deodorized 100% marine Triglyceride (TG) with the benefits of a gentle low-temperature vacuum deodorization to protect the integrity of valuable EPA and DHA, neutralizing the fishy aroma and maintaining the palatability of a super-premium marine ingredient into the finest petfood nutritional formulas. Manufactured with the highest concentration of essential fatty acids from the richest Pacific Anchoveta derived from the Engraulidae family (1) to achieve a guaranteed concentration of PUFA EPA+DHA of 30% (2) and total fatty acid Omega-3: 32% (3).

AntarcticOmega **ANCHOVY DEODORIZED FISHOIL** is the highest concentration of long-chain essential fatty acids manufactured under HACCP protocols and the technical scope of the voluntary monograph of GOED (4). Free of environmental pollutants, heavy metals, and bacteria. Stable at low temperatures.

Guarantees of Traceability and 100% Responsible Fish Source Supply of all ingredients under our label.

Shelf life up to 24 months when stored at room temperature.

Treated with mixed tocopherols as a natural antioxidant agent. Packed in bulk 920 kg disposable totes.

Imported from Chile and distributed nationwide from our FDA-licensed food facility in Port Arthur, Texas.
