

What is the EDGE District at K-State?

The Edge Collaboration District is a partnership between Kansas State University and the KSU Foundation to inspire industry collaboration along the northern edge of our campus. It's where industry, research and talent come together to produce meaningful innovations and real outcomes to Kansas, and beyond.

The Research Edge: In the Edge Collaboration District, partnerships fuel an innovative research environment that is expanding in anticipation of the opening of NBAF.

The Talent Edge: The Edge Collaboration District is where talent, hard work and passion fuel successful teams and build a workforce for tomorrow.

We invite you to contact us for more information:
