## PACKAGING SYSTEMS

*Excellence in Packaging Solutions*

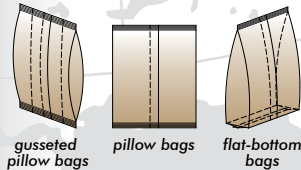

### Combination Scales

### Linear Scales

### Vertical Form/Fill/Seal Machines

### Pre-Made Bag Hangers & Closers

## Packaging Machinery Manufactured

### Combination Scales:

- Accurate, reliable weigh head design
- Ideal for pet products, IQF, pasta, confectionery, bakery, cereal, cheese, charcoal, etc.
- Latest PC-based controls with color touchscreen and diagnostics
- Speeds up to 120 weighments per minute
- Net weighing and piece counting capabilities
- Stored recipes and network data acquisition
- Customized product feeding systems

### Linear Scales:

- Accurate, reliable weigh head design
- Ideal for free flowing and semi-free flowing products
- Latest PC or PLC controls with color touchscreen and diagnostics
- Speeds up to 15 weighments per minute per lane
- Net weighing range from 1 oz. up to 110 lbs.
- Net weighing and piece counting capabilities
- Stored recipes and network data acquisition
- Customized product feeding systems

### Vertical Form/Fill/Seal Machines:

- Ideal for polyethylene, polypropylene or laminated film structures
- Package sizes from 2 inches to 15 inches wide and 3 inches to 23.5 inches long
- Speeds up to 120 packages per minute
- Tool free product size changeovers
- Stainless steel construction - ideal for IQF & USDA wash down
- A variety of package style configurations and machine options
- Simple integration with weigh or fill equipment

### Pre-Made Bag Hangers and Closers:

- Ideal for hanging and filling of pre-made paper or plastic bags
- Simplex, Duplex or Triplex hanger configurations
- Color touchscreen operator interface integrated with scale controls
- Bag placement speeds from 25-50 bags per minute per lane
- Tool free product size changeovers
- Simple integration with reforming and closing conveyors
