

SOLUTION INFORMATION

PET Plant-based Solutions

For Pet & Equestrian Nutrition

Plant-based nutrition takes on new levels of ease and function at Glanbia Nutritionals. Our portfolio provides a range of grain-free, non-GMO ingredients that improve texture and increase protein in pet and equestrian foods and supplements. Our Pet plant-based solutions makes incorporating plant-based protein, fiber and omega-3 ingredients easier.

We're built around you. **Just add Glanbia.**

PET Plant-Based Solutions Provide Nutritionally Packed, Gluten-Free, Plant-Based Ingredients Specifically Developed for Pet and Equestrian Applications.

Plant-based nutrition has been widely sought after as a source of fiber, protein and healthy fats. Incorporating plant-based ingredients into your pet and equestrian nutrition products is now easier with our PET plant-based solutions. Our PET plant-based solutions have a long shelf-life, maintain nutritional value and improve the texture and functionality of pet and equestrian applications.

Benefits for Pet & Equestrian Applications

- PET plant-based solutions improve taste, texture and performance.
 - Increased fresh meat inclusion
 - Binding & extension
 - Extruded products
 - Protein, fiber and healthy fat inclusion
 - Shelf-life extension
 - Hydrocolloid properties
- Our R&D team is available to work with your team to advise on formulation improvement and ingredient selection.
- Our MeadowPure® seed sourcing and sorting system allows for a 2 year shelf life and controls allergens for milled flax ingredients.

Meet Label Requirements

- Kosher
- Non-allergen
- Grain-free
- Non-GMO
