# *Introduction*

---

APS Phoenix is a U.S. based company supplying natural and high-quality pet food ingredients to manufacturers and distributors worldwide. Our natural ingredients deliver high-quality nutrients to pet food manufacturers, providing the best quality nutrition for our four-legged family members, and meeting the increasing expectations of pet owners.

# *About our services.*

---

- We offer the benefits of an international supply network, providing a wide range of air dehydrated vegetables and fruits, from the best producers around the world.
- All our products are produced in certified plants, recognized by GSFI standards.
- We handle all customs clearance, shipping, delivering the product directly to your warehouse.
- We are proud members of the Carbonfree® Shipping program, which offsets the transportation footprint of all the products that we send to our clients and helps sustainability initiatives worldwide.

# Our products

# Apple

Apples are a low calories ingredient full of valuable nutrients that are good for dogs. They are low in protein and high in fiber, which can be good for digestive health. They are also a good source of vitamins A, C, and K, as well as calcium and phosphorus. The antioxidants contained in these fruits may help with warding off cancer and reducing the symptoms of joint disease.

# Brewer's Yeast

Brewer's yeast is actively used as a nutritional supplement as it is a rich source of chromium and B Vitamins. Known for its probiotic properties, brewer's yeast is a great ingredient to be included in pet food, as it helps them digest food better. This pet food ingredient packs a host of minerals such as iron, magnesium, potassium, zinc, chromium, and selenium. It also contains protein and B vitamins like thiamine, niacin, riboflavin, biotin, pantothenic acid, folic acid, and pyridoxine.

# Cabbage

Cabbages are a rich source of Vitamin C, Vitamin K, magnesium, and folate. They also contain smaller amounts of Vitamin B6, thiamine, potassium, and calcium. Additionally, the antioxidants zeaxanthin, beta-carotene, choline, and lutein, give it its superfood quality. Cabbages also contain flavonoids quercetin, apigenin, and kaempferol, which help fight free radicals and reduce oxidative stress in pets.

# Chia Seed

*Non GMO*  
—  
**100% Natural  
AIR-DRIED**

Small in size but mighty in power, chia is the edible seeds of a flowering plant *Salvia Hispanica*. These seeds have a unique feature wherein they absorb twelve times their weight in liquid and develop a coating that gives them a distinctive gel texture. They are mottle-colored with black, white, brown and gray, and are loaded with nutrients that can benefit your dog. They are rich in dietary minerals such as iron, magnesium, calcium, phosphorus, and zinc.

# Pumpkin Seed (whole)

*Non GMO*  
—  
100% Natural  
AIR-DRIED

Pumpkin seed is one of the best vegan protein powder ingredients in the market. Roasted and de-fatted, this seed protein powder is made of nutrient-rich, hull-less grown pumpkin seeds. The nutty-tasting protein powder is highly digestible and a major source of protein and Omega-3 fatty acids. Pumpkin seed protein also packs in a rich source of vitamins and minerals, like, iron, calcium, Vitamin B, selenium, and beta-carotene, that the body ultimately converts to Vitamin A.

# Quinoa

*Non GMO*

100% Natural  
AIR-DRIED

Gluten-free, high protein seed Quinoa is one of the most popular foods in the world, and one of the best sources of protein for dogs. It is the seed of one of the very few plants in the world that contain the necessary amounts of all nine essential amino acids. These seeds are high in dietary fibers, protein and also include calcium, vitamin B-1, B-2, B-6, vitamin E, iron, magnesium, potassium, and phosphorus. It also contains plant compounds quercetin and kaempferol that protect against a range of chronic conditions.

# Tapioca

Tapioca is a starch source and a novel ingredient that has proved to be a great addition to grain-free specialty kibble for dogs. It is a highly digestible food source that is high in carbohydrates and is considered to be a vital part of kibble and wet recipes. The texture and the mouthfeel that it offers helps to determine palatability, particularly for small breed dogs. As it does not contain protein, it reduces the risk of food allergen and is suitable for dogs with adverse food reactions.

<b>16% Min</b> Protein level	<b><math>\leq 10^3</math> cfu/g</b> Moulds and yeasts
<b>5% Max</b> Total ash	<b>Absence</b> Salmonella
<b>12% Min</b> Fat	<b><math>\leq 10</math> cfu/g</b> Escherichia coli
<b>26% Min</b> Crude fiber	<b><math>\leq 10</math> cfu/g</b> Total Coliforms

**Region**  
South Europe

**Shelf life**  
12 months from date of production.

**Storage Conditions**  
Store in a closed package at a recommended temperature of 10-25°C or 50-77°F and a relative humidity no greater than 60%.

**Facility Certifications**

- BRC
- ISO 14001:2015 / ISO 9001:2015

# Zucchini

More information coming soon.

**Non GMO**  
—  
**100% Natural  
AIR-DRIED**

**POWDER** | **FLAKES** | **CUBES** | **SLICES**

**Packing**  
Carton Boxes  
Paper bags

**Drying  
Technology**  
Air-Dried
