PRODUCTS &
SERVICES

You Dream It. We Supply It.

Streamline your pet food production processes with high-quality blends and custom premixes from LANI – a leading provider of premium ingredients, milling and packaging services for the pet food industry.

WHY LANI?

Better Blends Make The Best Pet Food

Our 60+ years of expertise allows us to deliver safer, more precise premix blends – so you can deliver unique pet food to your customers without having to worry about the risks of sourcing, storage, shelf life and other complexities of premium pet food manufacturing.

Committed to Quality

We never cut corners. Fully automated batching and processing are combined with our lot tracking system to provide strict quality and safety controls. Our inbound and outbound ingredient testing ensure that nothing is ever accepted or shipped without verifying product safety and quality.

- SQF Level 2 certified
- Safe Feed/Safe Food certified
- MSC & AFIS certified
- Fully compliant with EU 1774
- Organic certified facility

900+ Ingredients

We specialize in premium, commodity, and micro-ingredients. We'll grind and mix ingredients to your exact specifications, ensuring it's always the right mix for your finished good.

- Organic certified ingredients
- AAFCO/FDA approved for use in pet food
- Conventional and non-GMO ingredients available for blending and resale

WHAT WE DO

Custom Pet Food Nutrition Solutions

PROCUREMENT

Get the ingredients you need exactly when you need them—at the best price in the industry.

FORMULA VALIDATION

Test, validate and fulfill the requirements of your formula with our premix—so your pet food meets the right standards every time.

BLENDED

Order custom premix blends of conventional, organic, non-GMO and premium ingredients. LANI's automated production systems help make manufacturing safer and simpler.

PACKAGING

Package products in hopper, pneumatic, totes or bags—and customize tote mixes to match your batch size.

LOGISTICS

Get premixes delivered to your facility when you need them.

A VISUAL GUIDE TO Our Premix Process

LANI procures premium ingredients and creates high-quality, safe, custom premixes to streamline your pet food production processes. Follow the steps below to see how it works.

STEP 1 BULK RECEIVING

1. We receive raw materials, including micro ingredients, in bulk, supersack or bags from verified domestic and international sources.
2. Upon delivery, we inspect and test raw materials.
3. We store acceptable ingredients on site. Nothing is ever accepted or shipped without verifying product safety and quality.

STEP 2 BATCHING & MIXING

1. We blend ingredients to client specifications during the batching process.
2. After we make batches, they are sent through a milling process for uniformity and homogeneous blending.

STEP 4 SIFTING*

*In our Brownwood facility

1. To remove unwanted materials, we perform a final inspection and uniformity step.
2. Formulas that require minor ingredient premixes or other ingredients may be resifted after a secondary batching, mixing and milling step.

STEP 3 HAMMER MILLING

1. We can perform a variety of particle reduction methods to meet diet and customer preferences.
2. Formulas that require minor ingredient premixes or other ingredients may be reground after a secondary batching and mixing step.

STEP 5 PRE-SHIPPING

We test and inspect the final premix before proceeding to shipping.
