Silent and Food Safe

The lightweight and silent solution

To maximize the value of your finished goods you need to ensure that your food products are fresh and safe. Sæplast has designed the most rugged, food safe, lightweight, silent and employee-friendly plastic buggy for your processing floor.

The Sæplast PE MS300 PE Buggy is built to withstand the harsh conditions and rough handling in all processing plants. The sturdy under-carriage has hard-wearing nylon wheels with polyurethane tread while the stainless-steel lifting brackets are integrated to facilitate thorough cleaning. These features all assist to benefit the safety of all workers.

The robust MS300 Buggy features a proven triple-wall polyethylene construction. The triple-wall polyethylene MS300 PE buggy will absorb noise whereas its counterpart in stainless steel creates the usual noise pollution. The sound level during dumping is diminished by 17 db. Even the noise produced during rolling is minimized.

With the capability of using different colors, plants can color code buggies to specific areas of the plant. Furthermore, with the use of the reusable polyethylene lid, product inside the MS300 buggy can be assured to be food safe.

The Sæplast PE MS300 Buggy is ideally suited for the handling of wet and dry products with a working capacity of 291 L with the capability of holding 600 lbs. of product. The low weight allows for easy handling. The pointed slope directs the outflow of dumping in the desired direction.

Colours available:

White
 Orange
 Grey
 Yellow
 Green
 Blue
 Red

Complete and directed dumping.

Integrated stainless steel brackets.

PE Sæplast PE MS301 Buggy without a bracket
