## *Introduction*

---

APS Phoenix supports pet food manufacturers with container-scale ingredient supply that's dependable, transparent, and competitive. We source plant-based ingredients globally and manage the full process—from qualification and documentation to logistics and delivery—so your procurement team can reduce risk and improve continuity. Whether you need starch solutions, vegetable fiber ingredients, or protein and specialty items, we offer on-demand availability, consistent specs, and responsive communication to keep your production moving.

# *About our services.*

---

- We offer the benefits of an international supply network, providing a wide range of plant-based ingredients from the best producers around the world.
- All our products are produced in certified plants, recognized by GSFI standards.
- We handle all customs clearance, shipping, delivering the product directly to your warehouse.
