Recycle if Clean & Dry
how2recycle.info

Our recycle-ready solutions are designed for premium functionality and durability, including supporting product weights up to 40 pounds. This presents an invaluable opportunity for brands seeking sustainable solutions who need to package bulky and high-volume products like pet food or fertilizer. Our recycle-ready structures are seamless drop-in replacements on filling lines and through the supply chain. On-package recyclability claims can also be included with the use of our material allowing brands an opportunity to communicate their commitment to their customers.
