Understanding Our Pouches

Flat Bottom

Also known as Block Bottom, Square Bottom, or SOS bag, this format has a flat base panel.

Pinch Bottom

Sometimes referred to as Merchandise, or "V" bottom bags, this format's stable bottom forms when filled.

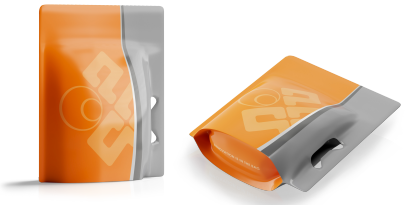

Foldover Bottom

Often called Rolled Glue bottom, or Overlapping Extra, the front layer folds over itself to form the bottom.

Stand Up Pouch

Often called a Doy-pack, K-Seal, or Plough Bottom pouch, this format has a rounded bottom when filled.

Wedge Pouch

A format unique to Peel Plastics, the Wedge Pouch mirrors our Stand Up Pouch, but includes a built-in handle.

Spine Pouch

Also known as Stand Up Spine, and/or Spouted Pouch, it's primarily used for dispensing liquids.

Shaker Bag

Sometimes called Shaker Packs, or simply Shakers. The handle at the bottom allows for convenient dispensing.

Bottom Seal

Commonly referred to as Bottom Seal Bag, this format is sealed at its bottom and has a square shape.

Sideweld

Often called Side Seal, or Side Seal Pouches. The Sideweld is sealed on all four of its sides.

Think Green

Sustainable Packaging Solutions

AR pouch

Our ISCC Plus certified advanced recycled* material mirrors the quality of mixed plastics.

circular pouch

Consists of AR* and PCR* contents, and can be recycled through Store Drop-Off.

PCR pouch™

This pouch consists of post-consumer recycled (PCR)* materials.

recycle-ready pouch

Our recycle-ready pouch portfolio can be recycled through Store Drop-Off.

plant pouch™

The bio-based material in these pouches derives from sugarcane, which captures CO2.

recycle-ready PCR pouch

This solution consists of PCR* material, and can be recycled through Store Drop-Off.

*AR (advanced recycled) is chemically recycled *PCR (post-consumer recycled) is mechanically recycled
